

MAKING THE WORLD A BETTER PLACE

OUR SUSTAINABLE AND PROTECTIVE PACKING.

Our corporate philosophy is to make lives even more beautiful by contributing to a sustainable society.

As part of this pledge, we understand the importance of sustainable packing and delivery to our partners.

We are always committed to providing solutions that balance quality and protection with environmental aspects.

OUR SUSTAINABLE SERVICES.

We live up to our goals by creating processes and systems that are:

- Non-polluting
- Conserving energy and natural resources
- Safe and healthy

OUR SHIPPING BOXES – A PROTECTIVE AND SUSTAINABLE PACKING SOLUTION

Our goal is to always deliver our products in good quality and condition to our customers. Our shipping boxes are designed to allow safe and ergonomic packing. Being made of FSC certified paper, our boxes also save planetary resources. The protection of goods is achieved by using Airpads as filling material.

AIRPADS – A SUSTAINABLE CHOICE

- Made with 100% recycled plastics (PE).
- Consist of only 1% plastics and 99% air.

- Produced locally which results in short-distance transportation.

- Easy disposal
- 100% recyclable¹
- Reusable

OUR GOAL – A SMALLER CARBON FOOTPRINT WITH AIRPADS

RECYCLED PAPER

- 130g (average per carton)

102.000 kg
(average per year)

AIRPADS

- 14g (average per carton)

10.500 kg
(average per year)

91.500 kg in transportation equals these annual CO₂ savings:

488.500 km
driven by car
CO₂ balance

3.500 trees
CO₂ balance

850 kg engine oil
Exhaustion of raw materials

This corresponds to one of these examples

Data provided by Storopack

1: In case of correct disposal in countries where an in-market recycling system is in place
